

LINE CARD

AVIONICS – PRECISION HYDRAULIC COMPONENTS

Dualos' Hydraulic Interface Components division laid the foundation for our company more than a decade ago. Dualos designs, manufactures and provides logistical support for an entire family of Avionics Hydraulic Interface Components.

AVIONICS – MIL-STD-1553 and ARINC CABLES

Military & Aerospace Interconnect Components Supplier for MIL-STD-1553 data bus couplers and cables, ARINC cables, and custom Avionics cable assembly design and manufacturing solutions.

AVIONICS – FLIGHT LINE TEST

VIAVI Solutions Avionics Test products are used around the world by Aviation maintenance groups to manufacture, test, and maintain airborne avionics systems such as TCAS, TACAN, and IFF.

COMMUNICATIONS – 5G, CYBERSECURITY, TEST AUTOMATION

Spirent provides communications technology services, developing hardware and software solutions, and test methodologies for the communications and military industries.

RF TESTBED (HARDWARE-IN-THE-LOOP) – DF, EW, SIGINT

Aspen proprietary RFCO software creates a portable HIL RF Testbed where RX and TX systems, targets, communications radios/datalinks creates the RF/GPS environment for systems under test based on location, orientation, movement, physical and RF environment, and noise sources.

RUGGED COMPUTER LAPTOPS and TABLETS

Durabook is a leading manufacturer of rugged computing solutions, including the Durabook line of laptops and mobile tablets ensuring you get, purpose-built devices for every industry.

UNINTERRUPTIBLE POWER SUPPLIES

Ametek-IntelliPower provides the top rugged Uninterruptible Power Supplies (UPS) for the most extreme military and industrial applications. Designed to meet MIL-STD 461, 1399, 810, and 901
