

# CAPABILITY STATEMENT

## Company Overview

Dualos applies our expertise and products, along with industry-leading partner solutions, to serve the Aerospace and Defense industry. We provide tailored solutions designed to address the complex testing challenges our customers encounter.

Nancy Papineau founded our Native American, SBA-certified Woman-Owned Small Business in 2008. Committed to advancing STEM education for Native American students, she serves as Vice-Chair of the American Indian Science and Engineering Society (AISES) Professional Chapter Council, a nonprofit focused on increasing Indigenous representation in science–technology–engineering–math.

## NAICS Codes

- 332912 – Fluid Power Valve, Hose Fitting, Hydraulic Component OEM
- 334111 – Electronic Computers
- 334118 – Computer Terminal and other Computer Peripheral Equipment
- 334511 – Search, Detection, Navigation, Guidance, Aeronautical devices
- 334515 – Instruments for Measuring and Testing Electrical Signals
- 423430 – Computer and Computer Peripheral Equipment and Software

## Products and Solutions

Dualos is a trusted and established supplier of **Precision Hydraulic Interface Components** for leading Aerospace manufacturers.

Additionally, Dualos partners with several world-class OEMs specializing in avionics, computers, testing and measuring instrumentation, including:

- **AMETEK/IntelliPower**  
Universal Power Supplies
- **Aspen Consulting Group**  
RF Testbed, EW and SIGINT software
- **Dell Federal Authorized Partner, ID# 3615524521**  
Computers, Servers, 5G, AI/ML, Quantum, Data Storage
- **Durabook**  
Rugged Laptops
- **VIAVI (AvComm)**  
Avionics Flightline, Avionics Fuel Quantity, Fuel Capacitance
- **VIAVI (Wireless)**  
Radio/Comms, High Speed Ethernet, Cybersecurity, Channel Emulation
