

CAPABILITY STATEMENT

Company Overview

Nancy Papineau founded our **Native American WOSB** in 2008. She envisioned creating a company focused on promoting diversity, inclusion, and giving back to her community.

As part of her commitment to give back, Nancy serves as the President of the American Indian Science and Engineering Society (AISES) Puget Sound Professional Chapter, a non-profit focused on increasing representation of Indigenous people in science, technology, engineering, and math (STEM). Many employees at Dualos mentor a young Native American each year.

NAICS Codes

- 332912 – Fluid Power Valve, Hose Fitting, Hydraulic Component OEM
- 334111 – Electronic Computers
- 334118 – Computer Terminal and other Computer Peripheral Equipment
- 334511 – Search, Detection, Navigation, Guidance, Aeronautical devices
- 334515 – Instruments for Measuring and Testing Electrical Signals
- 423430 – Computer and Computer Peripheral Equipment and Software

Products and Solutions

Dualos is a key supplier of Precision Hydraulic Adapters to Boeing, Blue Origin, and other Aerospace manufacturers.

In addition, we partner with several worldclass OEMs of Testing and Measuring instruments which include:

- **Abaco Systems**
MIL-STD-1533 and ARINC data bus equipment
- **Anritsu**
RF and Optical test instruments
- **Aspen Consulting**
EW and SIGINT software
- **Durabook**
Ruggedized Laptops
- **Simnovus**
5G and O-RAN software
- **Spirent**
Communications, Cybersecurity, and Automation

Dualos combines our expertise and products with industry leading partner products serving the Aerospace and Defense industry. We provide architected solutions that solve the test complexities challenging our customers.
